In these workshops participants will be informed about the objectives, requirements, and deadlines for each program as well as how to: 1) develop a more competitive application, 2) select a host country, 3) make necessary host country contacts, and 4) solicit winning letters of recommendation. Applicants must be U.S. Citizens.

Fulbright fellowships are prestigious, career-enhancing awards that confer special status on winners during and following their foreign study. They become outstanding, officially recognized representatives of the United States. Grants are provided to students, faculty, and professionals who undertake graduate study, advanced research, or teaching at the elementary, secondary, or university level in more than 140 countries. Most grantees choose their own programs. Projects may include university course work, independent library or field research, classes in an academic institution, a music conservatory, art school, or on special projects in the social or life sciences. The grants pay for air travel, a monthly living stipend, health and accident insurance and in some cases for tuition waivers and/or a research allowance.

To attend a workshop please register with Kathy Riel at 355-2350 or e-mail riel@msu.edu. To learn more about the Fulbright Program, contact Professor Frank M. D'Itri, the MSU Fulbright Program Advisor, at ditri@msu.edu.
